The diagram illustrates a relationship between three functions. On the left, two white rectangular boxes with black borders represent source functions. The top box contains the text 'MFRC522::PICC_DumpToSerial'. The bottom box contains the text 'MFRC522Extended::PICC_DumpToSerial'. On the right, a gray rectangular box with a black border represents a target function, containing the text 'MFRC522::PICC_DumpMifare ClassicToSerial'. Two blue arrows point from the right side of each source box to the left side of the target box, indicating that both source functions are mapped to or implemented by the target function.
